Homebrewers everywhere are called upon to take the challenge!

Great American Beer Festival (GABF) Section 10 Coffee Beer

Amended GABF for Section 10. Coffee Beer

Color: Pale to black depending on the underlying style

Perceived Malt Aroma & Flavor: Medium-low to medium malt sweetness provides balance with coffee flavor and aroma. **Perceived Hop Aroma & Flavor:** Low to high depending on the underlying style.

Perceived bitterness and Body: Varies with underlying style
Fermentation Characteristics: Typical of underlying style.

Additional notes: Coffee beers incorporate coffee in any form. Coffee character should be apparent as the defining attribute of this category, ranging from subtle to intense, and should be in harmony with other attributes of the underlying beer. Other flavors arising from the use of flavored coffee may also be present. **Within the framework of these competition guidelines, stouts and porters made with coffee are entered elsewhere.**

To allow for accurate judging the brewer must list details about the coffee(s) used, and any other ingredients or processes used ("medium roast cold extract in bright tank" for example). The brewer must also indicate the classic or experimental ale or lager style of the underlying base beer; the brewer may indicate "no classic style" in instances where the base beer does not hew to a category within these competition guidelines.

OG, FG, ABV, IBU and SRM: will vary depending on base beer style.
